Last week's meeting

Reporter: Jon Bowers

President **Jack Neely** brought the meeting to order at noon. **Tom Slater** and **Peter Larson** started singing R-O-T-A-R-Y. **Cheri Hottinger** led us in prayer and the Pledge of Allegiance. Tom and Peter followed, leading us in the "Air Force Song."

Chuck Moore introduced guests of Rotarians: Steve Owens (**Crawford Lipsey**); Dave Donahue (**Bob McGaughy**); Scott Hartley (**Nelson McCray**); Janice LoRaso (**Marcia Downes**); and Phil Claggett (**Steve Layman**).

High School student guests were also introduced. **Joyce Malainy** read the bios of two C-TEC students, Elana Preston and Jacob Bebout, and introduced Michele Snow, the secondary school director. **Nancy Anderson** introduced the Johnstown students, Abbey Schaffer and Samuel Leber, and their principal, Derick Busenburg.

Announcement: Marcia Downes expressed her appreciation Rotarian's support of STEM Fest.

3-minute speech: Kate Saylor gave her introduction to the club. She was familiar with Rotary because her father was a Rotarian and Paul Harris Fellow. She serves as the director of Behavioral Health Partners and told us about how public service has been a large part of her life since she was a child.

Sergeant-at-Arms: Pat Jeffries then welcomed Kate Saylor by levying her first fine for speaking over three minutes. He also fined **Bill Cost** for his granddaughter's announcement last week. Other people receiving fines were **Marcia Downes, Jack Neely, Rob Montagnese**, all Rotarians serving on the board of LMH, **Gary Baker, Mike Higgins** and **Patty Whisman**.

Program: Bob McGaughy introduced the guests Christina Douglass and Brett Stolle from the National Museum of the US Air Force, which is the largest and oldest aviation museum in the world. It is at Wright Patterson Air Force Base in Dayton. Being the largest non-commercial tourist attraction in Ohio, about one million people visit the museum per year. The facility is more than one million square feet and houses about 300 aircraft and more than 133,000 artifacts. Additionally, there are about 300 more aircraft outside. An additional new museum building was finished last summer. Admission is free. The facility is supported with taxpayer dollars and contributions to the Air Force Museum Foundation.

The museum has a section dedicated to hosting numerous presidential aircraft. Moving these aircraft into the museum increased annual visits to the Presidential Plane collection by a large number.

FDR was the first US President to fly in an airplane, and the first plane built for the President, the Sacred Cow, is housed there. The plane that served JFK and on which LBJ was sworn into office is also accessible. All the

the airplanes were thoroughly cleaned, restored and made "tourist-ready" before being moved into the museum. Presidential helicopters, also known as Marine One, are also part of the collection. They are hoping that one of the current aircraft that serve as Air Force One will be housed at the museum when they are retired.

Thought of the Week: Get out and enjoy the Spring-like weather.

No one won the raffle.

We finished by reciting the Four Way Test and ringing the bell.

February message from RI President John Germ

On Feb. 23, we marked 112 years since the founding of Rotary. It is incredible to think about how much has changed, in our world and in our organization, since the first Rotary club met in Chicago with Paul Harris as a founding member.

Some things are easy to compare between now and 1905. There have been changes in technology, medicine, and society. When we look at a map of the world in 1905 and a map of the world today, we can see what's different. What we can't do is compare what is with what might have been. There is no way to compare our world as it exists now with the world as it would have been without Rotary.

Rotary has risen to so many challenges in its 112 years. We've answered conflict with peace, and poverty with education. We've responded to a lack of basic health care with projects large and small, from equipping clinics in tiny villages to eradicating polio across the globe.

We will never know how different the world would have been if Rotary had never been founded; if any one Rotary club had never been chartered; or if any single Rotarian had declined the invitation to join a Rotary club.

But I will say, with absolute faith and complete confidence, that the world is a far, far better place now than it would have been without Rotary and that Rotary itself is stronger because of every one of you.

The world needs Rotary more than ever. It needs our courage, our optimism, and our idealism. It needs the voice of tolerance, cooperation, and hope that we can offer. It needs the example of an organization that has proven that the citizens of all countries can work together successfully and in friendship.

None of us ever knows the full impact of our actions. None of us knows the effects that will ripple out from the things we do and say, the decisions we make, the opportunities we seize, and those we let pass. But I think we all know that when we choose to do good, good will follow; and that when we choose Service Above Self as our life's path, the direction it will take us will be a good one.

No one can see the future. No one knows what changes lie ahead. But I have faith in Rotary, and in Rotarians, that with every passing year, you will make our world a better place through Rotary Serving Humanity.
